Transition and Career Planning for High School Students

Where your future begins

Nebraska VR

Where your future begins

What is Nebraska VR?

Nebraska VR is an employment program for students who experience a disability or any impairment that may impact work and/or the ability to work.

Nebraska VR assists students by:

- Making career plans
- Setting employment goals
- Identifying needed supports

Career exploration to determine job interests and aptitudes will be provided. Placement exams like the ASSET or Compass testing required by community colleges for class placement can also be administered at Nebraska VR offices.

Nebraska VR works with schools and other organizations across the state to help students plan for the future and prepare for careers that match their skills, abilities, and interests.

3 Steps to Get Started

1. A parent or guardian, school staff member, or other professional can contact Nebraska VR.
2. The student and parent or guardian complete an application for services and a release form.
3. The student meets with a Nebraska VR Employment Specialist to begin planning and career exploration.

Going Forward

Students can expect to explore career options during scheduled meetings with an Employment Specialist. Exploration activities may include:

- Job shadows
- Career fairs
- Job fairs
- Vocational evaluation and testing

Plans may include:

- Job seeking/job search activities
- Exploring work accommodations
- On-the-job evaluation
- On-the-job training
- Post secondary training
- Participation in Project SEARCH or a Certificate Program

Our services are meant to meet the needs of students today by preparing them for the careers of tomorrow.
